Worlds School Debate Education Program

The World Schools Debate Education Program will be composed of students seeking to spread Worlds School Debate to new students. Whether you are starting your WSD team at your school or schools around you, this team would give you access to World School Debate expertise to answer questions and generate the materials needed for practice.

An expectation of the World Schools Debate Program is that you will be deeply involved in developing a school-based Worlds School Debate team at your home school. World Schools Education Program primarily meets online to focus on WSD skill training and to collectively problem-solve challenges you may be facing in spreading WSD to new students. The Program will also offer limited opportunities for you to compete for in WSD for free online or domestically at your low cost.

For questions regarding format, please visit our [World Schools Norms page](#) for more info.
